

RMBS Employee Web Services for MIP Payroll

Web Timesheets

Web Based and Fully Integrated to MIP's Payroll

With EWS for MIP your employees can enter their time and access their personal information on the web from the convenience of their own computer. Since EWS for MIP is fully integrated using MIP's Payroll tables, you will be able to streamline your time sheet entry and approval process by allowing employees and managers access their information on the web.

- **Web Based:** Enter time and access personal information wherever you have internet access.

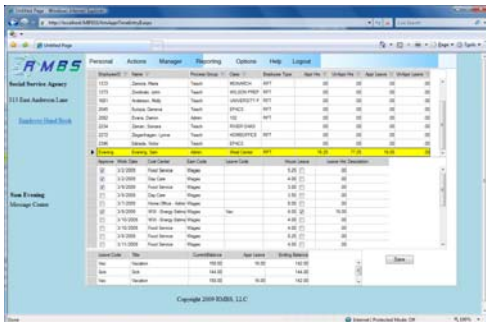

- **Easy Navigation:** Review personal information, payroll check history, and W-2 information in one web based location.

- **Web Based Time Entry:** Employees can enter time at their convenience on the web.

- **Web Based Time Sheet Approval:** Managers can approve employee time sheets from the web.

- **Message Center:** Employees can receive messages from the organization or managers.

- **Print Pay Stubs:** Managers can print pay stubs from the Web.
